

## ULTRA HIGH PRESSURE HAND PUMPS

Max. Pressure : 2800bar

- ◆ TITAL alloy space material. Light weight, high strength, resistant corrosion and protected impact are suitable for a variety of bad environment.
- ◆ There are two velocities in action. An automatic change-over valve with precision, low and high pressure is built inside.
- ◆ During low pressure, a greater flow is provided to save the operating time so as to increase the working efficiency.
- ◆ Built-in safety valve provides safe dual-protection.
